## Table of Contents

Preface / 000

Chapter 1 Biographical Introduction / 000

Editor's comment / 000

Emilio Segrè: Biographical Introduction / 000

Chapter 2 Fermi and the Elucidation of Matter / 000

Editor's comment / 000

Frank Wilczek: Fermi and the Elucidation of Matter / 000

Chapter 3 Letters and a Speech Relating to the Development of Nuclear Energy /

Editor's introductory comments / 000

Editor's comment 1 / 000

To Harry M. Durning, January 16, 1939 / 000

Editor's comment 2 / 000

From George B. Pegram to S. C. Hooper, March 18, 1939 / 000

Editor's comment 3 / 000

From Leo Szilard, July 3, 1939 / 000

From Leo Szilard, July 5, 1939 / 000

From Leo Szilard, July 8, 1939 / 000

To Leo Szilard, July 9, 1939 / 000

From Leo Szilard, July 11, 1939 / 000

Editor's comment 4 / 000

From Vannevar Bush, August 15, 1941 / 000

Editor's comment 5 / 000

From Harry S. Truman, 8/11/5 / 0000

Editor's comment 6 / 000

"The Genesis of the Nuclear Energy Project," January 30, 1954, speech outline

"Physics at Columbia University: The Genesis of the Nuclear Energy Project," N

Chapter 4 Correspondence between Fermi and Colleagues: Scientific, Political,

Editor's comments on letters / 000

To Janes F. Byrnes, October 16, 1945 / 000

From C. N. Yang, January 5, 1950 / 000

To C. N. Yang, January 12, 1950 / 000

From Erwin Schrödinger, February 10, 1951 / 000

To Erwin Schrödinger, February 27, 1951 / 000

From Fred Reines and Clyde Cowan, October 4, 1952 / 000

To Fred Reines, October 8, 1952 / 000

To Dean G. Acheson, May 22, 1952 / 000

From Linus Pauling, June 16, 1952 / 000

From George Gamow, March 13, 1953 / 000

To George Gamow, March 24, 1953 / 000

From Samuel Goudsmit, March 11, 1953 / 000

To Samuel Goudsmit, March 24, 1953 / 000

From George Kistiakowsky, September 29, 1953 / 000

To George Kistiakowsky, September 30, 1953 / 000

From Arthur Compton, December 2, 1953 / 000

To Arthur Compton, December 14, 1953 / 000

From Owen Chamberlain, February 2, 1954 / 000  
Chapter 5 Research: Selections from the Archives / 000  
International House application, June 10, 1940 / 000  
Editors comment 2 / 000  
To Walter Bartky, December 3, 1945 / 000  
Editor's comment 3 / 000  
Photograph of original members of the Institute for Nuclear Studies / 000  
Institute for Nuclear Studies members, 1950 / 000  
Editor's comment 4 / 000  
Genesis of theory of cosmic ray acceleration, 1948 - 1949 / 000  
Editor's comment 5 / 000  
Summary page from data book on meson-nucleon scattering, February 1952 / 000  
Editor's comment 6 / 000  
Program for calculation of cyclotron orbits on the Maniac computer, 1951 / 000  
Editor's comment 7 / 000  
Quantum mechanics exam, spring quarter 1954 / 000  
Editor's comment 8 / 000  
"The Future of Nuclear Physics," Rochester, January 10, 1952 / 000  
Speech outline, January 30, 1954 / 000  
Chapter 6 Reminiscences of Fermi's Faculty and Research Colleagues, 1945 - 1954 / 000  
Richard Garwin: Working with Fermi at Chicago and Postwar Los Alamos / 000  
Murray Gell-Mann: No Shortage of Memories / 000  
Marvin Goldberger: Enrico Fermi (1901 - 1954): The Complete Physicist / 000  
Roger Hildebrand: Fermi's Classrooms / 000  
Darragh Nagle: With Fermi at Columbia, Chicago, and Los Alamos / 000  
Valentine Telegdi: Reminiscences of Enrico Fermi / 000  
Albert Wattenberg: Fermi as My Chauffeur (Fermi at Argonne National Laboratory) / 000  
Courtenay Wright: Fermi in Action / 000  
Chapter 7 Reminiscences of Fermi's Students, 1945 - 1954 / 000  
Harold Agnew: A Snapshot of My Interaction with Fermi / 000  
Owen Chamberlain: A Brief Reminiscence of Enrico Fermi / 000  
Geoffrey Chew: Personal Recollections from 1944 - 1948 / 000  
George Farwell: Reminiscences of Fermi / 000  
Uri Haber-Schaim: Fermi in Varenna, Summer 1954 / 000  
T. D. Lee: Reminiscences of Chicago Days / 000  
Jay Orear: My First Meetings with Fermi / 000  
Arthur Rosenfeld: Reminiscences of Fermi / 000  
Robert Schluter: Some Reminiscences of Enrico Fermi / 000  
Jack Steinberger: Fermi and My Graduate Years at Chicago: Happy Reminiscences / 000  
Chapter 8 Reminiscences of Students of the Fermi Period, 1945 - 1954 / 000  
Nina Byers: Fermi and Szilard / 000  
Jerome Friedman: A Student's View of Fermi / 000  
Maurice Glicksman: Enrico Fermi: Teacher, Colleague, Mentor / 000  
Marshall Rosenbluth: A Young Man Encounters Enrico Fermi / 000  
Lincoln Wolfenstein: Fermi Interactions / 000  
C. N. Yang: Reminiscences of Enrico Fermi / 000  
Gaurang Yodh: This Account Is Not According to the Mahabharata! / 000  
Chapter 9 What Can We Learn with High Energy Accelerators? / 000  
James W. Cronin: Fermi's Look into His Crystal Ball / 000  
Further Reading / 000  
List of Contributors / 000

Library of Congress Subject Headings for this publication: Fermi, Enrico, 1901
